

# FOUNDATIONS AND PRECALCULUS MATH 10 JUMPSTART

**Date:** August 14 - 18, 2017

**Time:** 12:30 - 3:30 pm

**Location:** STA

**Cost:** \$120

This week long summer camp is designed to help STA students better prepare for Foundations and Precalculus Math 10 (FPC 10). Transitioning from Math 9 to FPC 10 is challenging for many students as this math course is significantly more demanding than Math 9, covers a significant amount of concepts at a fast pace and requires students to have a good understanding and foundation in math 9. The FPC 10 course also includes a mandatory Provincial Exam that students must write at the end of the school year.

This camp is intended for students who may have experienced difficulty with Math 9 concepts and skills and/or who wish to review Math 9 and preview key FPC 10 concepts prior to the start of the new school year. The program will consist of a review of Math 9 concepts such as operations with polynomials, factoring, solving equations and inequalities, linear relations, exponent laws, irrational numbers and volume and surface area. As well, the program will preview specific topics in FPC 10. The classes will be taught by math teachers from STA.

Please register early as there will be limited spots available. Registration fee includes all materials plus a snack each day.

**Registration Deadline:** June 28<sup>th</sup>, 2017

Please drop off the attached registration form and payment to the school office or mail to:

Ms. Martins

St. Thomas Aquinas High School

541 W. Keith Road, North Vancouver

V7M 1M5

*(please make cheques out to St. Thomas Aquinas High School)*
